ExDir-Compt, same subj -- DD/S 70-0420**

1. This memorandum is for your information only.
2. Paragraph 2 of reference asked each addressee to provide a statement of actions taken or to be taken in response to each of the recommendations of the Inspector General's report. Recommendation #5 was addressed to the DD/S for action.
3. A preliminary Office of Logistics review of the various regulations having to do with the control of firearms reveals no significant inconsistencies in the controls specified. There are, however, several areas of seeming variations between the regulations concerning the degree of control to be exercised. Some revisions aimed at consolidation will also serve to improve the coherence of the regulations from the standpoint of consistent interpretation on the part of all Agency elements involved. Further review action has now been initiated with Clandestine Service components.
